

SIMPLE AND COST-EFFECTIVE CASE SEALING FROM EASTEY ENTERPRISES

October 1, 2015, Brooklyn Park, MN – Eastey Enterprises, a leading manufacturer of L-sealers, sleeve wrappers, shrink tunnels, bundling equipment, case tapers and material handling, introduces the rugged BB-2 case taping system for sealing cases at a cost-effective price.

Eastey's BB-2 case taper is a cost-effective top and bottom case taper designed for large run case sealing. BB-2 features self-centering side rails, a rugged bottom belt drive, and heavy-duty mast that easily adjusts to handle a variety of case sizes. BB-2 top and bottom tape heads are interchangeable and tip back for easy threading. No air is required to run the BB-2 taping system so it can be placed anywhere in the factory. A safe single mast allows clear access to all components and adjusts for a variety of case sizes. The use of Eastey's BB-2 case taping machine can be learned in minutes, avoiding breaks in production and downtime

BB-2 offers fast and easy case changes with adjustable side rails and flexibility ranging from 5" to infinite box length. BB-2 is also able to seal cases ranging from 5" to 21" in width, as well as 4" to 20.5" in depth. Adjustments can be made on the fly with easy hand tighten knobs on a single mast design. BB-2's open design is also perfect for integration with ink jet printers where coding is required on boxes.

The BB-2 is available now through Eastey Enterprises network of authorized distributors. Sales inquiries can be directed to Joshua Nelson, Eastey Enterprises, 7041 Boone Avenue, Brooklyn Park, MN 55428, 1-800-835-9344.

Eastey operates as a subsidiary of Engage Technologies Corporation, parent company of Squid Ink, Eastey Enterprises, AFM, and Cogent Technologies. Squid Ink

(www.squidink.com) is a leading manufacturer of superior quality inks and ink jet printing equipment. American Film & Manufacturing (www.afmsleeves.com) manufactures and supplies shrink sleeves and shrink labeling solutions. Cogent Technologies (www.cogent-tech.com) manufactures infrared drying systems used to dry ink in the industrial and graphics industries.
